<p><b>Wednesday</b> 8:15 - 11:30 Session C</p>	<p><b>Session C:</b> Fostering Collaboration, Politics of Governance, Competency Indicators, <b>Reflection on Growth</b></p>

# Governance Module Outcomes

1. Understand characteristics of effective governance and why it is important.
2. Develop a deeper understanding of research related to Board Governance and its implications for Trustees, Superintendents, Secretary Treasurers and other System Leaders.
3. Examine the collective impact the leadership practice of all system leaders, (e.g., ASBOA members, CASS system education leaders focused on the LQS), has on *SLQS: Supporting Effective Governance*.

# A1 Research Overview

*Supporting Effective School Board Governance* (Zarichny, 2021)

## A2 What is Your Story?

...from an Organizational Review to a Hasty Hire

## A2 What is Your Story?

From November, 2021...

1. 60% of senior leadership positions are new  
(by year-end, 40% new principals, 40% new assistant principals)
2. Five new board members, new chair, new vice-chair
3. Controversy over COVID - in particular masking and vaccine policy
4. Controversy over curriculum design and implementation
5. Controversy over new school name
6. Boundary changes for the Immersion community

## A2 What is Your Story?

What is your story?

What is familiar about your context?

What might be unique about your journey and situation?

# A3 Do School Boards Matter?

*The part can never be well unless the whole is well - Plato*

# A3 Do School Boards Matter?

ACTIVITY

From A to Z

# A3 Do School Boards Matter?

- Time
- Not understanding their role
- Interfering with daily operations
- Personal agendas
- Unable to perform as a collective
- Cost to the division

# A3 Do School Boards Matter?

However, the expectation on Trustees is unique and often difficult.

- Collaboration
- Supporting a passed motion
- Predetermined team membership
- Expectation of Robert's Rules of Order

*Trustees do not exist as a group of individuals, but rather only exist as a group of one*  
(Brown & Brown, 2011).

# A3 Do School Boards Matter?

- The idea of self-governance is closely tied to democracy
- Trustees want to make a difference
- Accountability
- Allows for local context and efficacy

**It is our professional obligation to make the current model  
as successful as possible.**

## A4 What is **Effective** Governance?

According to Campbell and Fullan (2019),

The strengthening of the public school system can only happen with the full engagement and support of a well-functioning local governance system.

School district governance - how school boards and superintendents work together is one of the most neglected and underappreciated, yet most important functions in education.

## A4 What is **Effective** Governance?

Campbell and Fullan (2019) further state,

Effective governance is “school boards and superintendents working together as a cohesive, unified team with a common purpose, driven by a shared moral imperative.”.

# The Moral Imperative

The **Teaching Quality Standard**: Quality teaching occurs when the teacher's ongoing analysis of the context, and the teacher's decisions about which pedagogical knowledge and abilities to apply, **result in optimum learning for all students.**

The **Leadership Quality Standard**: Quality leadership occurs when the leader's ongoing analysis of the context, and decisions about what leadership knowledge and abilities to apply, result in quality teaching and **optimum learning for all school students.**

The **Superintendent Leadership Quality Standard**: Quality superintendent leadership occurs when the superintendent's ongoing analysis of the context, and the superintendent's decisions about what leadership knowledge and abilities to apply, result in quality school leadership, quality teaching and **optimum learning for all students in the school authority.**

**A framework that results in optimum learning for all students  
is also the moral imperative for Boards!**

# A4 Why is **Effective** Governance Important?

## The importance of “why?” before “how.”

- The moral imperative is building an organization that is focused on success for every student (Fullan & Campbell, 2019).
- Allows boards to pursue a common focus with senior leadership (Quinn & Dawson, 2019).
- It is important to have correlation between governing practices and student success (Zarichny, 2021).

## A4 Why is **Effective** Governance Important?

*It is not an exaggeration to say that when boards disintegrate into dysfunction, the impact can be felt throughout the organization*

(Campbell & Fullan, 2019, p.. 110).

...often this “dysfunction” happens when they lose focus.

# A4 Identifying and Supporting **Effective** Governance

What does the research tell us about **Effective** Governance?

1. This is a fairly new concept, so even experienced superintendents and trustees may not be living in this context or perspective
2. Effective Governance does not occur by wielding authority, but through influence, understanding, and collaboration
3. Enacting effective governance can be difficult

# A4 Identifying and Supporting **Effective** Governance

## ACTIVITY

Look to Handouts in your Participant Guide titled,

**A4 Governance Working Styles**

**A4 Governance Questions for Discussion**

# A4 Identifying and Supporting Effective Governance

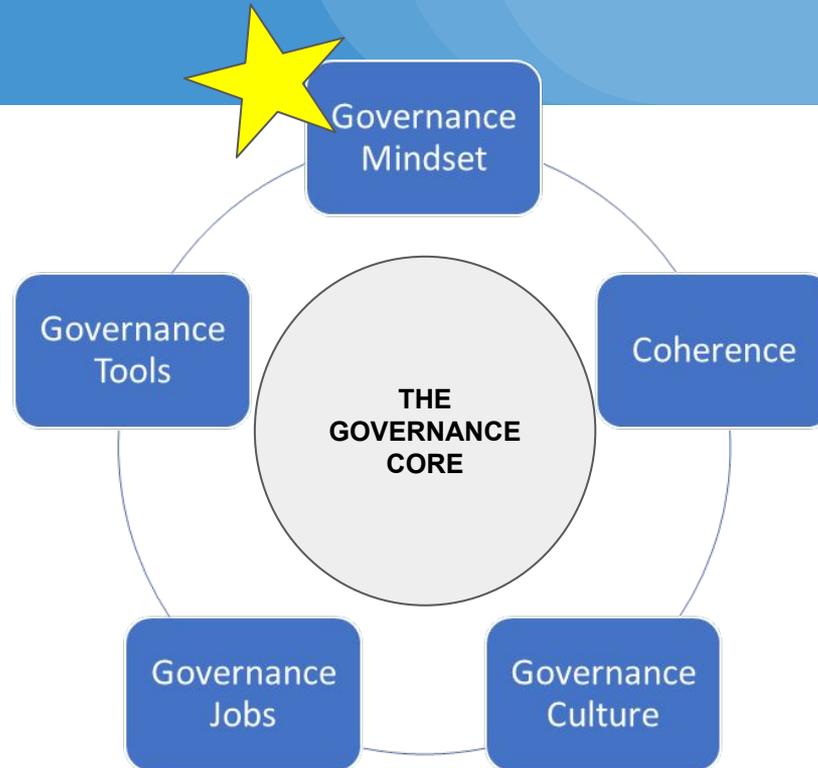

In order to support effective governance practices, there are three areas that a superintendent must focus on. They include **utilizing a governance model**, **ongoing board development**, and **helping trustees engage with the broader community and stakeholder groups to inform decision making**. (College of Alberta School Superintendents, 2019).

# A4 Identifying and Supporting Effective Governance

*There is a need for clarity of roles as a significant element  
in its governance model*

(Alberta School Boards Association, 2019).

# A4 Identifying and Supporting Effective Governance

# A5 Context Matters!

## ACTIVITY

Refer to handouts in your Participant Guide titled,  
**A5 Context Matters**

# A5 Moving Forward Together

At a time when taking a coherent, system-wide approach to serving all kids and improving schools is more important than ever, effective governance is perhaps the least understood and most underutilized component for success and sustainability. School board members, superintendents, and their local communities especially need to understand and focus on effective governance. (personal communication, August 2018)

# A5 Context Matters!

Reflection:

What is my plan to have my Board engage and agree with this new approach (one that may require a mindset shift)?

# A5 Professional Growth/Reflection

How is your practice reflected/informed by what you have learned?

What **questions** have emerged in this session about supporting effective governance within your school authority?

**ASBOA**  
ASSOCIATION OF SCHOOL BUSINESS OFFICIALS OF ALBERTA

### School Business Officials Practice Standards

#### Human Resource Practice Profile

Being an effective school business professional requires proficiency in a broad variety of skill sets. The ASBOA Practice standards detail those abilities broken down into nine general areas.

- Administration
- Communication
- Facility Management
- Financial Resource Management
- Human Resource Management
- Planning and Evaluation
- Property Acquisition Management
- Technology Management
- Transportation Management

This profile tool is intended to frame your reflection on your practice. Additional indicators representative for your context, your practice and your plans for growth may be added.

TO BE AN EFFECTIVE PROFESSIONAL IN SUCH A MULTI-DISCIPLINARY ENVIRONMENT, IT TAKES A SPECIAL SET OF ATTRIBUTES.

A suggested approach for using this tool:

**Evidence in Practice**

Review each of the statements highlighting ones that represent practices you demonstrate

Identify those practices you demonstrate in the "Evidence in Practice" column. (Are the practices observable? Are they measurable?)

If you currently demonstrate a practice that is not described in the statements, consider adding it to the Evidence in Practice Column

Additional indicators that represent your context based on examples of practice shared in the "Evidence in Practice" column may also be added.

The design for this Practice Profile Tool was developed by CASS and adapted with permission from the professional practice resulting in optimum learning for all students in Alberta.

### Superintendent Leadership Quality Standard: PRACTICE PROFILE

The Superintendent Leadership Quality Standard (SLQS) is described by competencies superintendents are required to demonstrate in their professional practice. Each competency includes indicators designed to provide illustrative examples of competent leadership practice. Indicators are actions that are likely to lead to the achievement of the competency and which, together with the competency, are measurable and observable.

This **profile tool** is intended to frame your reflection on your **practice**, based on the indicators for each competency from Alberta Education's SLQS. Additional indicators representative of your context, your practice and your plans for growth may be added. Indicators may also be representative of Alberta stories of practice and/or emerging research.

- Building Effective Relationships
- Modeling Commitment to Professional Learning
- Visionary Leadership
- Leading Learning
- Learning for Students, Adults and the Education System
- School Authority Operations and Resources
- Supporting Effective Governance

A suggested approach for using this tool:

**Evidence in Practice**

- Review the indicators for each competency highlighting ones that represent practices you demonstrate.
- Identify those practices you demonstrate in the "Evidence in Practice" column. (Are the practices observable? Are they measurable?)
- If you currently demonstrate a practice that is not described in the Alberta Education indicators, consider adding it to the indicator column.
- Additional indicators that represent your context based on examples of practice shared in the "Evidence in Practice" column may also be added.

**Areas for Growth**

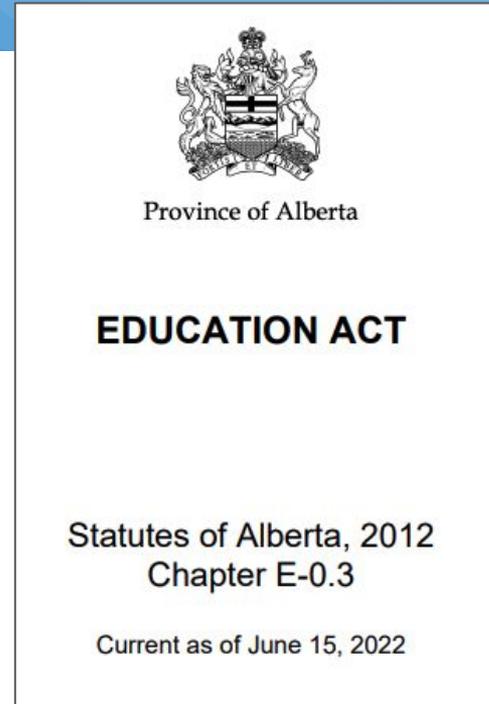

- Reflect on your practice and use SLQS or your own indicators to assist you in identifying areas for growth.
- Areas of growth should be able to be supported by observations and measures of practice.
- You may choose to add additional indicators based on Alberta stories of practice and/or emerging research that identify areas in which you would like to grow.
- The development of a professional learning and implementation plan for the areas of growth you identify can be informed by system level planning tools available at <https://cass.alberta.ca/planning-for-implementation/>

# SECTIONS C and D

## Working together to support effective governance

At the start of this session, three outcomes were shared.....

### Governance Module Outcomes

1. Understand characteristics of effective governance and why it is important.
2. Develop a deeper understanding of research related to Board Governance and its implications for Trustees, Superintendents, Secretary Treasurers and other System Leaders.
3. Examine the collective impact the leadership practice of all system leaders, (e.g., ASBOA members, CASS system education leaders focused on the LQS), has on *SLQS: Supporting Effective Governance*.

# SECTIONS C and D

## Working together to support effective governance

By the end of sections C and D you will...

- Explore the collaborative nature of governance
- Reflect on the impact of your current role in supporting effective governance

## Supporting Effective Governance

**7.** A superintendent of schools as referred to in the *School Act*, as chief executive officer of the board and chief education officer of the school authority, **provides the board** with information, advice and **support required** for the fulfillment of its governance role, and reports to the Minister on all matters required of the superintendent as identified in the *School Act* and other provincial legislation.

Achievement of this competency is demonstrated by indicators such as:

- (a) establishing and sustaining a **productive working relationship** with the board, based on mutual trust, respect and integrity;
- (b) ensuring that all students and staff are provided with a welcoming, caring, respectful and safe learning environment that respects diversity and **fosters a sense of belonging**;
- (c) ensuring that all students in the school authority have the opportunity to meet the standards of education set by the Minister of Education;
- (d) ensuring that the board's plans, resource allocations, strategies and procedures lead to the achievement of its goals and priorities;
- (e) ensuring that the board's fiscal and resource management is in accordance with all statutory, regulatory and board requirements;
- (f) **supporting the board** in the fulfilment of its governance functions in the fiduciary, strategic and generative realms;
- (g) implementing board policies and **supporting the regular review** and evaluation of their impact;
- (h) **ensuring the support, ongoing supervision and evaluation** of all staff members in relation to their respective professional responsibilities;
- (i) **facilitating collaboration** among the board, staff and First Nations, Métis and Inuit leaders, organizations and communities to establish strategic policy directions in support of First Nations, Métis and Inuit student achievement and development;
- (j) **building the capacity of the board and staff** to predict, **communicate and respond** to emergent circumstances, including emergency readiness and crisis management, and to political, social, economic, legal and cultural contexts and trends;
- (k) **supporting the board in its engagement** with the school community to develop a vision of a preferred future for student success;
- (l) **facilitating ongoing public communication** about the board's operations and the achievement of its goals and priorities; and
- (m) **promoting constructive relations** between the board and staff, as well as provincial authorities, post-secondary institutions and education stakeholder organizations.

Superintendent Leadership Quality Standard (SLQS) is a competency standard for superintendents required to be in their professional practice. Each indicator includes indicators designed to provide ample evidence of competent leadership practice. Indicators are actions that are likely to lead to the achievement of the competency and which, together with evidence, are measurable and observable.

The SLQS is intended to frame your reflection on your practice based on the indicators for each of the SLQS. Additional reflective practice stories for your growth may be added. Indicators may be reflective of Alberta stories of practice and/or research.

**The Superintendent Leadership Quality Standard**

Quality superintendent leadership occurs when the superintendent's ongoing analysis of the context, and the superintendent's decisions about what leadership knowledge and abilities to apply, result in quality school leadership, quality teaching and optimum learning for all students in the school authority.

Alberta Education February 2018

Approach for using this tool:

**In Practice**

Indicators for each competency highlighting present practices you demonstrate. Use practices you demonstrate in the "In Practice" column. (Are the practices effective? Are they measurable?)

Identify a practice that is not currently demonstrated in the Alberta Education Indicators, adding it to the indicator column. Indicators that represent your context examples of practice shared in the "In Practice" column may also be added.

**Areas for Growth**

- Reflect on your practice and use SLQS or your own indicators to assist you in identifying areas for growth.
- Areas of growth should be able to be supported by observations and measures of practice.
- You may choose to add additional indicators based on Alberta stories of practice and/or emerging research that identify areas in which you would like to grow.
- The development of a professional learning and implementation plan for the areas of growth you identify can be informed by system level planning tools available at <https://cass.alberta.ca/planning-for-implementation/>

*Refer to handout*

1. Teach, coach, lead – but don't lecture. Provide the board with engagement opportunities. Every question is a learning opportunity.
2. Count understanding – not votes. Votes are deceiving. Votes get you short-term support, but understanding gets you long-term support and sustainability.
3. Forget about control. Control rarely works anywhere anymore but certainly not in governance. If you worry about control, you don't get the true nature of governance.
4. Coherence making is the secret to effective governance. Once that is part of the governance culture, everything else falls into place.

5. Make the board winners; create value for them. Help make the board experience valuable. Engage the board; show them the impact of the district's programs on children in real time. Make sure they own the successes and share in the failures.
6. Respect the governance function. How many have used the phrase care and feeding of the board? How many have used the phrase care and feeding of the senior staff? Not ever.
7. Depersonalize governance – operate at 1,000 feet. Do not get drawn into the drama.
8. Support the board's community outreach and leadership.
9. Watch your manner. Stay cool at all times; remember everyone is watching you.
10. If you hate or resent governance, maybe being a CEO is not for you.

# Deepening Understanding and Applying the Learning

This session will be successful for me if.....

1. Understand good governance and why it is important.
2. Deepen understanding of governance for Board members, Superintendents and System leaders based on what the research says.
3. Examine your own governance practices.

Quality superintendent leadership occurs when the superintendent's ongoing analysis of the context, and the superintendent's decisions about what leadership knowledge abilities to apply, result in quality school leadership, quality teaching and optimum learning for all students in the school authority.

### Competencies

## Supporting Effective Governance

A superintendent of schools as referred to in the School Act, as chief executive officer of the board and chief education officer of the school authority, provides the board with information, advice and support required for the fulfillment of its governance role, and reports to the Minister on all matters required of the superintendent as identified in the School Act and other provincial legislation.

Achievement of this competency is demonstrated by indicators such as:

- establishing and sustaining a productive working relationship with the board, based on mutual trust, respect and integrity;
- ensuring that all students and staff are provided with a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging;
- ensuring that all students in the school authority have the opportunity to meet the standards of education set by the Minister of Education;
- ensuring that the board's plans, resource allocations, strategies and procedures lead to the achievement of its goals and priorities;
- ensuring that the board's fiscal and resource management is in accordance with all statutory, regulatory and board requirements;
- supporting the board in the fulfillment of its governance functions in the fiduciary, strategic and generative realms;
- implementing board policies and supporting the regular review and evaluation of their impact;
- ensuring the support, ongoing supervision and evaluation of all staff members in relation to their respective professional responsibilities;
- facilitating collaboration among the board, staff and First Nations, Métis and Inuit leaders, organizations and communities to establish strategic policy directions in support of First Nations, Métis and Inuit student achievement and development;
- building the capacity of the board and staff to predict, communicate and respond to emergent circumstances, including emergency readiness and crisis management, and to political, social, economic, legal and cultural contexts and trends;
- supporting the board in its engagement with the school community to develop a vision of a preferred future for student success;
- facilitating ongoing public communication about the board's operations and the achievement of its goals and priorities; and
- promoting constructive relations between the board and staff, as well as provincial authorities, post-secondary institutions and education stakeholder organizations.

## Implementation Questions

### Planning using *A Guide to Support Implementation: Essential Conditions* <http://essentialconditions.ca/>

This guide was developed based on the shared belief that successful implementation requires the coordinated, collaborative and comprehensive efforts of education partners working together towards a shared vision of learning success for all students (*A Guide to Support Implementation: Essential Conditions, 2012*). It is intended to support a process of collaborative conversation among education stakeholders working together to develop an implementation plan. It is designed with guiding questions to facilitate dialogue and planning.

This template offers selected questions for consideration in supporting implementation of the quality standards (adapted from *A Guide to Support Implementation: Essential Conditions*). It also provides space for you to record your group's responses as a result of dialogue.

#### Shared Responsibility

- Who is affected by implementation of the quality standards?
- How are education stakeholders working toward a shared understanding of and commitment to their respective roles and responsibilities to support implementation?

#### Shared Vision

- How is the shared vision developed collaboratively with and endorsed by stakeholders?
- Is the intent of the change, your preferred future, clearly articulated in the vision?

#### Leadership

- How is the capacity of current and future leaders being developed – including a focus on leadership competencies?

#### Research and Evidence

- What data, including current research, evidence and lessons learned, is being collaboratively and systematically collected and analyzed to support implementation planning and to assess the degree of implementation?
- How is understanding of effective professional learning modelled in the plan? How does the plan align with the change imagined?
- Does student learning data inform capacity building plans?

#### Resources

- What is your current capacity to support this change?
- How might this change be phased-in to optimize current capacity and available resources?

#### Teacher Professional Growth

##### Principal Leadership Professional Growth

##### Superintendent Professional Growth

- How is information and data from adult learners about their needs coherent with the TQS, PLQS and SQS? Is this data used to inform professional learning design?
- How might we design a more comprehensive approach for professional learning?

#### Time

- What is the overall implementation timeline?
- Are the stages of implementation considered?

#### Community Engagement

- How and who are the stakeholders engaged in supporting implementation?
- Are stakeholders meaningfully involved or just communicated to/with?
- Are there opportunities for both communication and more active involvement?

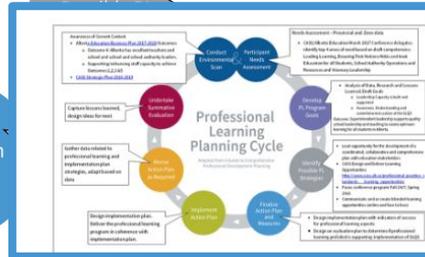

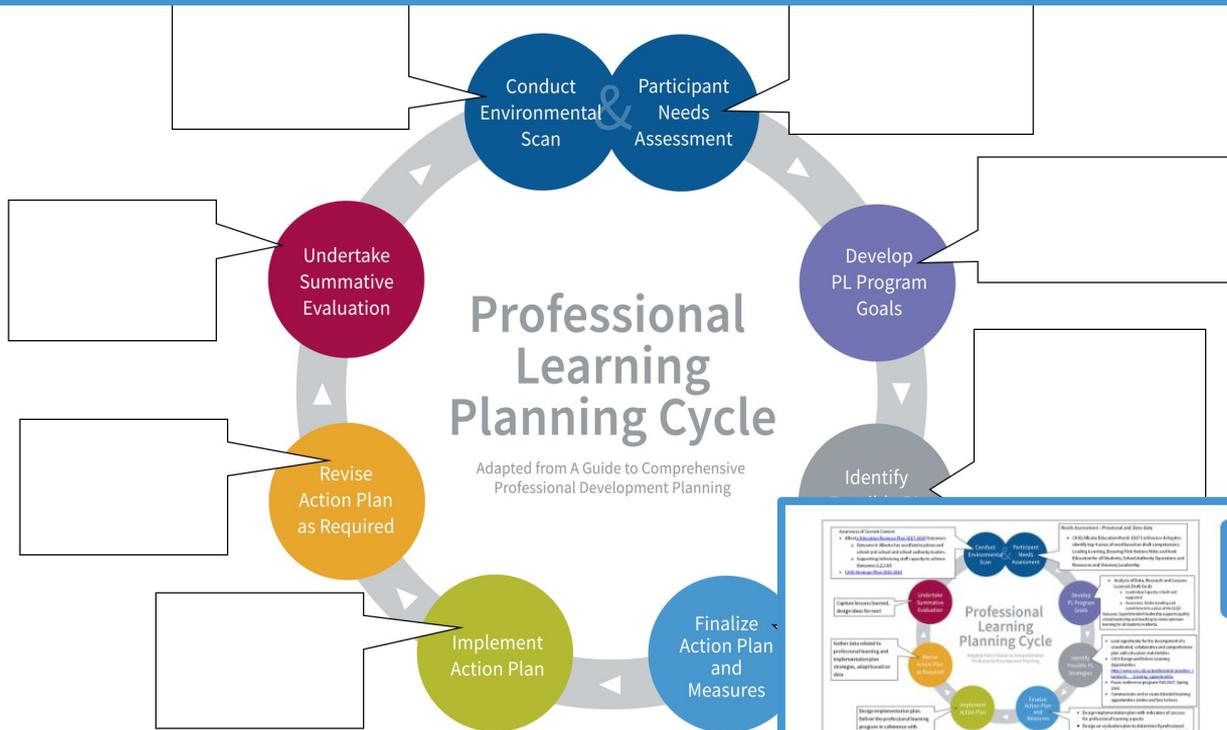

#### Student Learning

- How will you know if your implementation planning efforts are having an impact on and supporting student success?

#### Culture of Learning

- How are you fostering a culture of learning to optimize learning and success for all students?

# Comprehensive Professional Learning Planning

 2018-2019 PL Plan – Focus Professional Prac

# Comprehensive Professional Learning Planning

## Planning using *A Guide to Comprehensive Professional Development Planning* <http://bit.ly/2lDSAm9>

This guide is intended to support a process of collaborative conversation among education stakeholders working together to develop a comprehensive plan for professional learning. It is designed with guiding questions to facilitate dialogue and planning. Research continues to show that student learning is enhanced when staff has capacity - implying standards of practice can be enhanced through professional learning. It is believed that a comprehensive plan for professional learning has the potential to develop the capacity of your staff - more so than any individual professional learning opportunity.

This template offers selected questions for consideration in supporting implementation of the quality standards (adapted from *A Guide to Comprehensive Professional Development Planning*). It also provides space for you to record your group's responses as a result of dialogue.

### Conduct Environmental Scan

- What currently exists that supports quality standards of practice? (e.g. policy, practice, research, supports for professional learning)
- How do your district vision, mission and/or goals support staff capacity?

### Participant Needs Assessment

- What data currently exists that identifies professional learning needs? Current staff capacity? (e.g. student learning data, staff survey data, other support organization data)
- How might you collect data on the professional learning needs of your team?
- Can you collaborate with others to collect data? (e.g. CASS, ARPDC, ATA)

### Develop PD Program Goals

- Based on your district's vision and mission, school plans, as well as data analysis of individual needs, what will your goals for professional learning be?
- How will your goals include a focus on both staff capacity and the impact on student learning?
- Are goals different for the district, the school, and the individual staff member?

### Identify Possible PD Strategies

- Which professional learning designs best suit the diverse needs of your team?
- What professional learning opportunities are offered by other organizations? (e.g. CASS, ATA, ARPDC, AAC, post secondary programs)
- How will professional learning be ongoing and sustained?
- How will the impact of your professional learning plan be measured?

### Finalize Action Plan and Measures

- Does the plan contain goals, learning designs and strategies, ways to measure impact and the necessary resources to actualize the plan?
- How will the plan be communicated? Resourced?
- What will you accept as evidence that staff capacity has been enhanced?

### Implement Action Plan

- Based on the stakeholders involved in developing the plan, how will they continue to be involved in supporting implementation and monitoring impact?
- How often will you collect and analyze data to know your efforts are having an impact?

### Revise Action Plan as Required

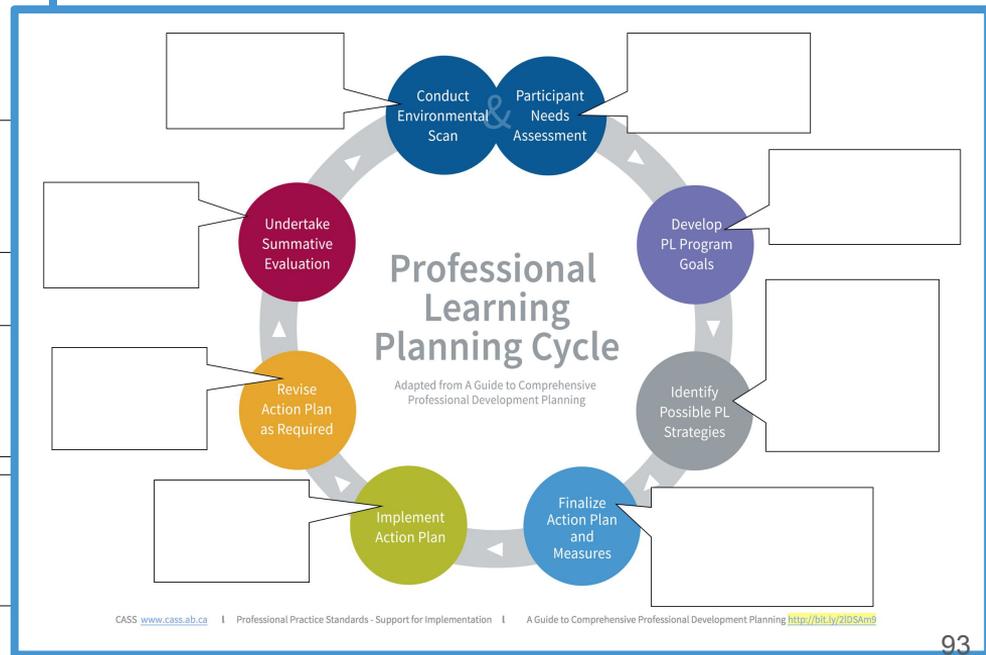

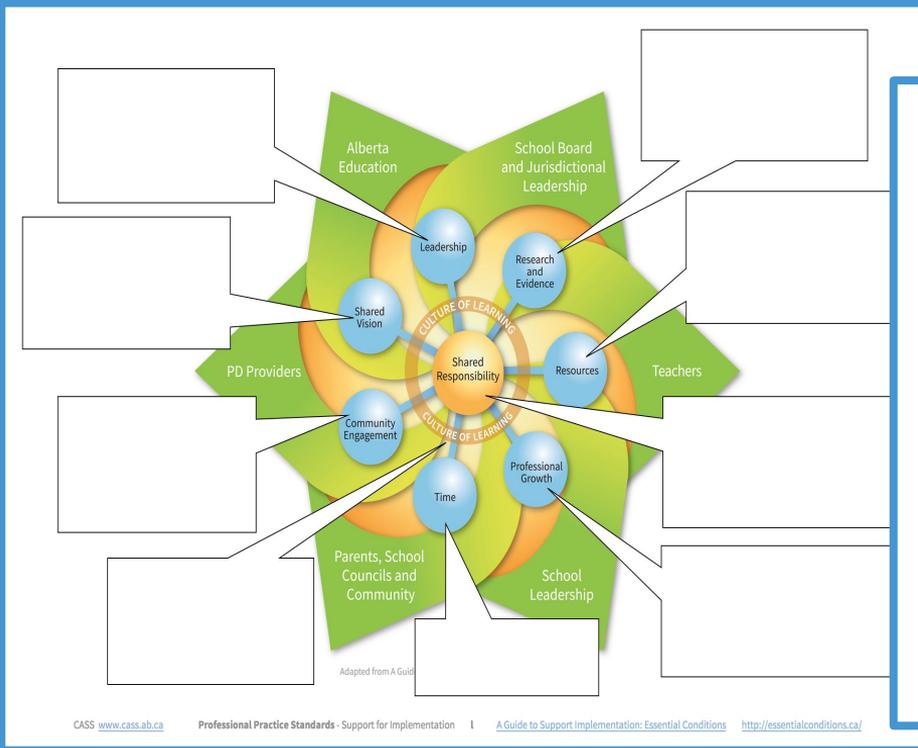

- Based on data you have collected and analyzed, how will you adapt your plan?
- Is the comprehensive plan influencing practice and student learning?

### Undertake Summative Evaluation

- Did the plan meet its goals? (e.g. student learning)
- Did the plan meet participants' needs? (e.g. enhanced practice)
